SAFE, DURABLE, BUILT TO LAST

- Welded aluminum I-beam tower
- Marine grade aluminum, welded carriage assembly
- Industrial grade gearmotor
- Meets ASME A18.1 code for vertical platform lifts/wheelchair lifts
- Type "A" instant safeties ensure the carriage cannot fall in the unlikely event of the cables breaking or becoming slack.
- Shipped 75% pre-assembled for easy on-site installation
- Runs on standard 110vac power
- 95% aluminum construction
- Standard platform 32”w x 48”d
- 500 lb capacity
- 24 fpm travel speed
- Soft start/stop PLC controller
- Constant pressure operation
- Industrial duty gearmotor
- Winding drum drivetrain
- Type "A" instant safeties
- Safety underpan stops lift if there is an obstruction below
- Meets ASME A18.1 code
- Plug N’ Play wiring makes installation quick and easy
- Standard finish: mill finish aluminum
- Optional finish: Powder Coated in choice of white, gray, tan, or beige

Self-closing doors and gates are equipped with safety interlocks to keep doors locked when the lift is away from the floor level.

Shown with optional enclosure package.
